PROJECTS

Credenager

credenager.vercel.app/
MERN · Android Native

- Credenager is an encrypted credentials manager that lets users manage their keys, codes, passwords, or any other type of sensitive data securely.
- All the credentials stored are end-to-end encrypted by a key.

Cinehub

cinehubb.vercel.app/
NextJS · ExpressJS · Redux · MongoDB

- Cinehub is an information-based social platform that serves users information regarding millions of TV Shows, Movies, and their casts & crew.
- Users can add any show or movie to the list and give them tags like planning to watch, completed, etc. and can even add friends, and see what they are up to.

BackItUp

chiraggoyal.vercel.app/
project/back_win
C# · WinUI3 · XAML

- BackItUp is a tool which backups already selected multiple files and folders into a zip file automatically at a specified time or when triggered manually.
- Furthermore, Google Drive Integration will upload the locally created backup onto the google cloud automatically after a new backup is created.

AI-Tools

github.com/chirag1910/
ai-tools
C# · WinUI3 · XAML

- AI-Tools contains multiple artificial intelligence tools, which are an Animal classifier, Spam detector, Heart disease predictor, and Image OCR.
- Animal-classifier: It is an image classification tool that classifies images among ten groups.
- Please check out other details at the GitHub page

Other

- Please check out all my other projects at <https://chiraggoyal.vercel.app/>

ABOUT ME

I'm a fourth-year student who is very passionate about software development and always look forward to exploring more with every opportunity.

KEY EXPERTISE

- Python
- NextJS
- Redux
- ExpressJS
- Javascript
- MongoDB
- Android Native

TRAINING

IBM · Artificial Intelligence
